

IT CALL Computer Services

Introduction:Based in the North West, IT Call specialises in servicing, maintaining and repairing desktop computers, servers and laptops.

IT Call (Part of the Deltrus Group) provides a friendly and efficient, customer focussed call-out service with all its engineers fully trained and experienced in IT servicing and repairs.

As well as providing repair services, IT Call also sources parts for laptops, desktops and server computers.

Whatever your IT requirements IT Call always provide a quality professional service at very reasonable prices.

There are a number of maintenance and repair packages available for commercial or domestic computer users. Users will soon be able to book engineers and sign up to service contracts online from this website.
