

Stone Computers Partnership

IT Call has now become a reseller for Staffordshire based Stone Computers . This partnership will allow IT Call to add computer sales to its existing computer repair business. Stone Computers is a computer manufacturer specialising in the supply of PCs, notebooks, servers, networking equipment, peripherals and audio-visual products. Stone Computers has gained an enviable reputation for reliability and stability with over 40,000 PCs sold in the last year. The company has also earned the confidence of the Education sector, with over 500 UK Schools, Colleges and Universities making regular purchases.

The new partnership will give new and existing customers a chance to purchase reliable systems from a reputable supplier. The future is an exciting one as both companies work together to provide customers with an online ordering facility. Customers interested in purchasing systems can now do so from the new Stone Computers Website .
